

ARRAMPICA SITE-SPECIFIC INSTRUCTOR (ADVENTURE PARK Continuous Belay System)

The ARRAMPICA Site-Specific (Adventure Park Continuous Belay System) qualification is aimed at facilities who want staff to be qualified but only need them to be trained to work on one particular Adventure Park with a Continuous Belay System and do not require a National Governing Body qualification.

These are any ropes courses where the participant remains attached to the safety system throughout the experience; i.e. they do not need anyone else to belay them, nor do they need to operate any equipment other than perhaps guiding a connector over a bracket.

COURSE DETAILS

The ARRAMPICA Site-Specific course will only cover the parts of the syllabus that we decide are relevant to fulfil the required criteria for your particular site, taking into account the adventure park the staff are to be trained for.

Adventure parks are ropes courses designed primarily for recreation. This course trains and assesses candidates to instruct on a Continuous Belay System, for example, a Niko Rail or Safe Roller System.

ARRAMPICA Instructor qualifications will train your staff according to current best practice and relevant legislation and are recognised by insurance companies.

The course ARRAMPICA syllabus for the Adventure Park Instructor Qualification and is fully compliant with EN15567 Part 2.

Theoretical course content:

- General knowledge and the role of the Instructor
- Norms and ARRAMPICA-Standards
- Laws and insurance
- Medical checks and exclusion criteria
- Site-specific regulations
- Emergency plans and general safety standards
- Equipment care and maintenance
- Basic knowledge of forces that can affect a ropes course
- Communication

Practical course content:

- Instructing, assessing and supervising participants
- Knots and harnesses
- Preparation and operation of high elements
- Routine checks and inspections

- Accessing techniques
- Facilitation skills
- Self-belay techniques

The course consists of training and assessment, finishing with a summary practical assessment and a written multiple-choice paper.

COURSE ASSESSMENT and OUTCOMES

Upon successfully completing the course the candidate will be issued with the ARRAMPICA certificate for ARRAMPICA Site Specific Instructor (Adventure Park Continuous Belay System). This certificate is valid for three years.

To re-validate the award, candidates must either attend another ARRAMPICA course, or a 1-day refresher. Revalidation can be at any time within the three years, or within a one-year grace period after the certificate validity expires.

In the unfortunate event of you failing to meet the standard required during the summary assessment, the trainer will discuss what you need to improve on and how to proceed.

COURSE PRE-REQUISITES

- Participants must be of a minimum age of 18 years old
- Hold a valid First Aid certificate
- Physically fit enough to take part in a ropes course activity
- Capable of working at height
- At least one day prior experience on an Adventure Park Ropes Course (ideally the course they are to be trained on)

WHAT'S INCLUDED?

- Instruction and coaching by Arrampica
- Course information booklet
- Equipment hire for the two days
- ARRAMPICA registration and PDF certificate on successful completion
